Lab - Research Laptop Specifications

Laptops often use proprietary parts. To find information about the replacement parts, you may have to research the website of the laptop manufacturer.

Before you begin this lab, you need to know some information about the laptop.

Your instructor will provide you with the following information:

Laptop Manufacturer:	Lenovo IdeaPad S145-14IIL
Laptop Model Number:	81W6
Amount of RAM:	4GB-8GB (Partially soldered/upgradable)
Size of the Hard Drive:	M.2 NVMe SSD (typically 128GB, 256GB, or 512GB)

Answer the following regarding your laptop model.

1. Use the Internet to locate the website for the laptop manufacturer. What is the URL for the website?

   -Lenovo-
   https://psref.lenovo.com/syspool/Sys/PDF/IdeaPad/ideapad_S145_14IIL/ideapad_S145_14IIL_Spec.PDF

2. Locate the service section of the website and look for links that focus on your laptop. It is common for a website to allow you to search by the model number.

   List the links you found specific to the laptop and include a brief description of the information in that link.

   https://pcsupport.lenovo.com/us/en/products/laptops-and-netbooks/ideapad-s-series-netbooks/s145-14iil/81w6

   -This website is the customer services it provides support to any issue the laptop might have.

3. Briefly describe any service notices you found on the website. A service notice example is a driver update, a hardware issue, or a recall notice for a laptop component.

   The laptop brand have driver updates, have hardware repairs, a manual, troubleshooting, warranty and etc…

-Since the laptop is a bit old to this day, some people talk about getting an upgrade, saying it is slow, it is trash, and about some issues with software or hardware, but for me right now it is usable and I can play some light games if I want to play some and do my schoolworks just fine.
