Lab – Mobile Device Information

Introduction

In this activity, you will use the Internet, a technical journal, or a local store to gather information about an Android and an iOS device. You will document the specifications of each Android and iOS device onto this worksheet. Be prepared to discuss your decisions regarding the devices you select.

Recommended Equipment

- PC with Internet Connection

Instructions

Step 1: Select an Android and iOS device to research. Record the hardware specifications in the boxes below.

Specifications	Android Device	iOS Device
Model	Samsung Galaxy S26 Ultra	Apple iPhone 17 Pro Max
Manufacturer	Samsung Electronics	Foxconn, Pegatron, and the Tata Group
Operating System	Android OS	IOS
Available Memory	256GB ROM/12GB RAM	256GB ROM/12GB RAM
Camera	Galaxy's 1/1.3" sensor 200MP	iPhone's 1/1.28" imager 48MP
Wi-Fi Connectivity	5GHz Wi-Fi	5GHz Wi-Fi

Specifications	Android Device	iOS Device
Battery Information	**16:22h/5000 mAh**	**17:58h/4823 mAh**
Screen Size and Resolution	***6.9″*** **LTPO OLED** **120Hz** **1440x3120** **pixels** **500** **ppi** **1480** **nits**	***6.9″*** **LTPO OLED** **120Hz** **1320x2868** **pixels** **460** **ppi** **1000** **nits**
Size and Weight	***214 g*** **163.6 x 78.1 x 7.9 mm** **(6.44 x 3.07 x 0.31 in)**	***233 g*** **163.4 x 78.0 x 8.8 mm** **(6.43 x 3.07 x 0.35 in)**

Step 2: Based on your research, which mobile device would you select? Be prepared to discuss your decisions regarding the mobile device you select.

Based on my findings in the activity, me personally, I would choose Android more than the IOS, since most of the time I like gaming and watching some movies, animes, etc.., thought I like how smooth and some of the features there are in an ios phone and how customizable it is, I prefer practicality more than aesthetics, since most of the time people choose an Iphone for the trend or aesthetics, and in what I do I think samsung has the upperhand due to the processor being snapdragon which is mostly used for gaming phones or heavy gaming.
