Hands-On-Activity No. 1.1

Using Pseudo-code Statements and Flowchart Symbols

Course Code: CPE007	**Program: Computer Engineering**
Course Title: Programming Logic and Design	**Date Performed:July 9, 2026**
Section: CPE11S2	**Date Submitted:**
Name: Jose, Redge Jansen A. Jose	**Instructor: Sir NJ**

1. Objective(s)

This activity aims to develop a pseudo-code and flowchart instruction of a program.

2. Intended Learning Outcomes

2.1 Understand the concept of Pseudo-code and Flow-charting

2.2 Construct a Flowchart and Pseudo-code

3. Materials and Equipment

Internet connection
Personal Computer

4. Procedure

Example 1: Design an algorithm and the corresponding flowchart for adding the test scores as given below: 26, 49, 98, 87, 62, 75

Algorithm

Start

Sum = 0

Get the first testscore

Add first testscore to sum

Get the second testscore

Add to sum

Get the third testscore

Add to sum

Get the Forth testscore

Add to sum

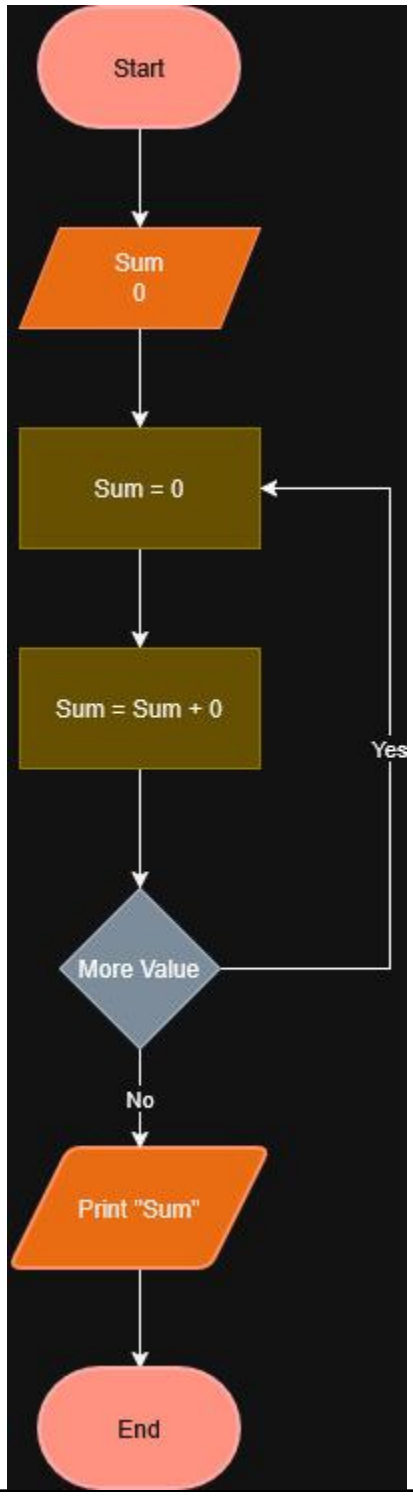

Get the fifth testscore

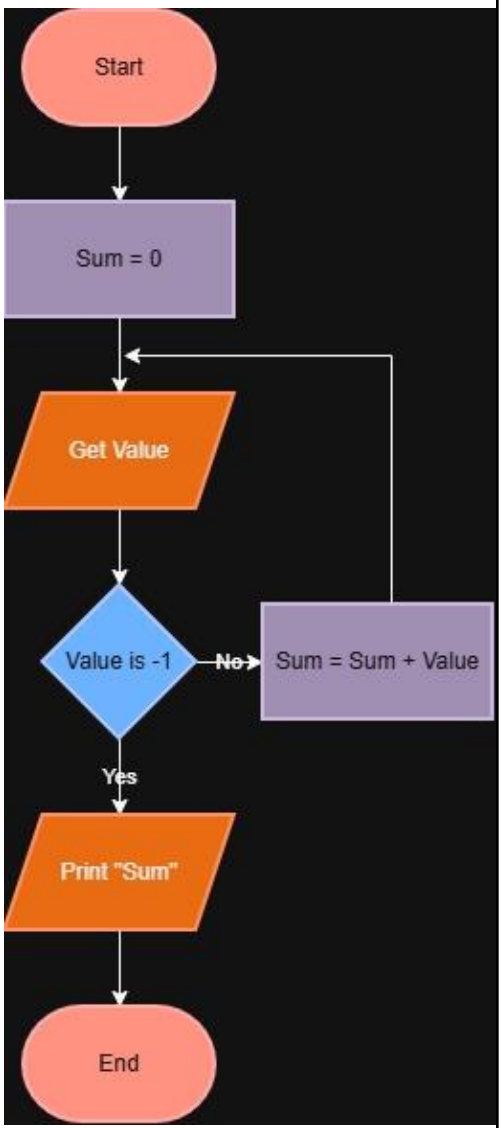

Add to sum

Get the sixth testscore

Add to sum

5. Output

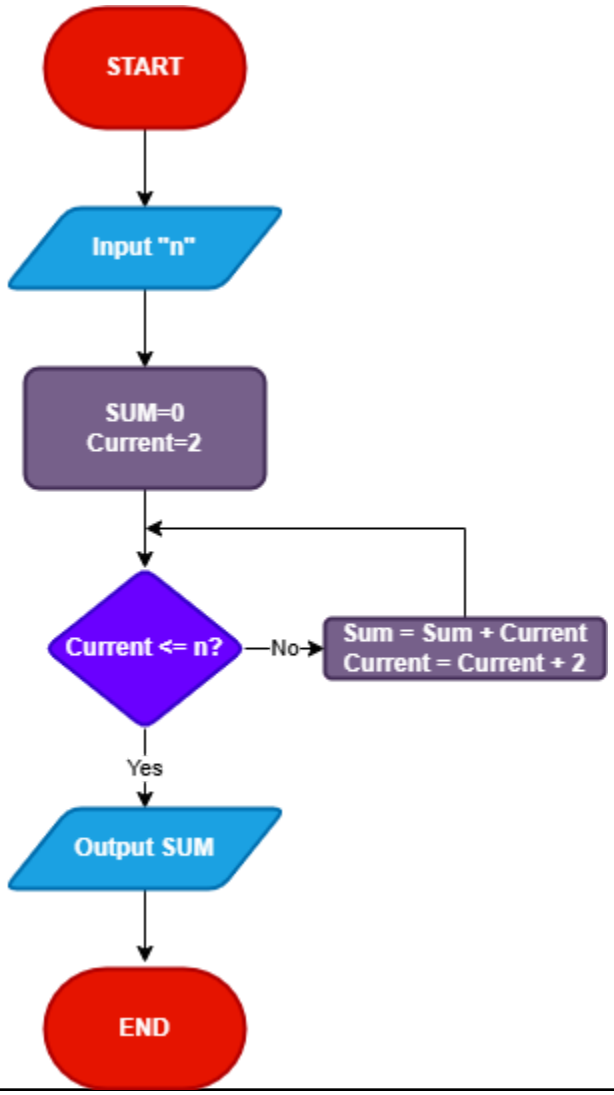

6. Additional Activity

1. Design an algorithm and the corresponding flowchart for finding the sum of the numbers 2, 4, 6, 8, …, n

(output: Algorithm and Flowchart)

2. Write an algorithm to read 100 numbers and then display the sum.
3. Write an algorithm to read two numbers then display the largest.
4. Write an algorithm to read two numbers then display the smallest
5. Write an algorithm to read three numbers then display the largest.
6. Write an algorithm to read 100 numbers then display the largest.

7. Conclusion

This activity helped in getting use to pseudo code and flowchart

8. Rubric
